

Why Buy a Used Turret Press... When You Can Invest in This New JFY... for the Same Price!

You're far better off with a new JFY full featured hydraulic turret press that delivers 600 strokes per minute.

The VT-300 is a precision press built by one of the premier machine builders in Asia. They blend their manufacturing expertise with world recognized pneumatic and electrical components to produce the accuracy and reliability to compete globally. Foremost Machinery Corporation is proud of the addition of JFY to the Foremost group of companies.

JFY Turret Presses are available exclusively from Foremost Machinery
